

Fusion Essence

CREATE THE DIGITAL FUTURE OF YOUR BANK

You focus on your customers, we help you meet their demands

Imperative 2

Operational Efficiency and Low TCO

The modern open Java technology of Fusion Essence provides:

- Total flexibility in terms of application server, database and OS enables you to minimise IT costs
- Agility allows you to evolve post implementation
- Full automation, from onboarding and origination through to the back office, reduces your headcount and costly error rates
- Platform agnostic, it offers substantial extensibility capability
- Design tool reduces design time and minimises recoding costs
- Service-oriented architecture (SOA) is from the ground up, not just a wrapper

Flexible and extendable Digital Channels platform with built-in business logic and a comprehensive set of services built on industry best practices lets you manage all digital customer journeys with ease and consistency.

- Front to back and Fintech integration capabilities
- No code business configuration
- Easy upgradeability via packaged digital engine with APIs and extension points
- Extension and customisation capabilities with the Digital Development Kit
