What is Fusion Managed Services?

The complete managed solution

Built on market leading technology and managed by subject-matter experts, Fusion Managed Services delivers everything from leading-edge financial software to support and testing. It is also available as a full managed service or an enablement service to suit your organization and its specific needs.

Management

Support, operations management, governance

Implementation

Implement or upgrade depending on requirements

Updates

Tested, production-ready, kept in standard support

Software

Finastra products and ecosystem components

Platform

Secure, resilient, high-performance infrastructure

Freedom to focus

Taking over your operational burden

With Fusion Managed Services, we take over much of your operational burden, allowing you to focus on your business priorities.

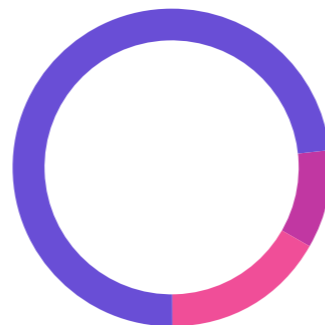

Traditional

Ordinarily, the bank takes on the majority of the efforts of business operations, customer support, IT service management, upgrades, technical operations and all infrastructure management.

Finastra Fusion Managed Services

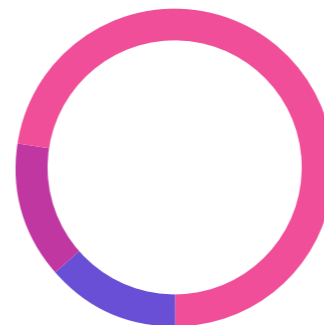

With Fusion Managed Services, we take on **all of your infrastructure** and **IT service management**, as well as the majority of your customer support, upgrades and technical operations, leaving you to focus on your strategic priorities.

Flex the solution

Fusion Managed Services provides our customers with a full-service model. We take the burden of running your applications and infrastructure, to deliver an impactful, flexible and reliable service for your business.

If you need alternative models, we have options to suit our customer's varying needs.

Application management services

Benefit from our experts, as they manage and sustain your Finastra applications, whilst you maintain control of the infrastructure the applications run on.

Run enablement services

We provide tooling, training and assistance to support your team in providing the service your business needs, using Finastra applications managed in-house.

What are the benefits?

Why Fusion Managed Services?

Fusion Managed Services enables you to evolve your organization with minimal input, risk and time to value. Finastra takes over your operational burden, optimizing cost of ownership and return on investment.
