Allied Payment Network (Allied) is laser-focused on providing the relevant and user-friendly digital payment technology that consumers demand. Get competitively stronger, earn new business and smart consumers, and be a digital leader in payment technology.

Technology rooted in user-centered design thinking
The best-of-breed solutions provide what users need, all within a financial institution's trusted digital environment. Allied’s technology makes competing payment solutions unnecessary.

"Allied Payment Network’s technology makes competing payment solutions unnecessary."
Allied provides the digital payment technology financial institutions need to innovate, modernize, and thrive.

Partnership
Allied understands how financial institutions must cope with the struggles of innovation, modernization, and conversion. Through a true partnership, with first-to-market features, and technologies, Allied helps you capture new users, unlock revenue, and excel within the market.

FlexPay: Tomorrow’s bill pay platform
FlexPay is the cutting-edge bill pay platform that integrates with our additional distinctive modules. Conversion is refreshingly easy, so you get the bill pay platform you want while saving time and preserving valuable resources.

eBills
View and manage full PDF bill images from thousands of billers (not just bill summaries) and enjoy automated linking with a comprehensive setup wizard.

PicturePay®
Improve the user experience and drive bill pay adoption. Users can pay bills and set up payees by simply taking a photo of their bill.

Person-to-person (P2P)
Give your institution its own branded P2P solution. Deliver real-time, person-to-person transactions with layers of fraud protection built in seamlessly. Recipients can accept payments in real-time to their debit cards or through standard ACH.

Account-to-account (A2A)
With Allied’s real-time account verification, the user can add a new external account and schedule a transfer to/from that account via ACH, within the same session (no penny deposits necessary). Like P2P, A2A is secured with frictionless fraud protections.

Vault
A keyword-searchable filing cabinet for bills, receipts, insurance documents and more, Vault motivates users to store and stay securely within the financial institution’s trusted digital environment.

BizPay
BizPay allows even small businesses to send payroll and/or direct ACH payments without the typical, cumbersome financial reviews. Funds are guaranteed, mitigating risk. Business owners can delegate tasks like scheduling payments, payroll and more, while maintaining diligent oversight.

About Finastra
Finastra is building an open platform that accelerates collaboration and innovation in financial services, creating better experiences for people, businesses and communities. Supported by the broadest and deepest portfolio of financial services software, Finastra delivers this vitally important technology to financial institutions of all sizes across the globe, including 90 of the world’s top 100 banks. Our open architecture approach brings together a number of partners and innovators. Together we are leading the way in which applications are written, deployed and consumed in financial services to evolve with the changing needs of customers. Learn more at finastra.com
