Misys solutions to drive business transformation of financial institutions

London, UK, 31 October 2016 – Misys, provider of the broadest portfolio of lending, treasury, trading and risk management solutions available on the market, is helping to transform the global financial services industry by making financial institutions more resilient, more efficient and more competitive. Misys solutions are used by some of the world's leading global financial institutions, including 48 of the world's 50 largest banks. The company today announced the signing of a five-year Enterprise License Agreement giving Deutsche Bank unrestricted access to deploy Misys FusionBanking Lending and Misys FusionCapital solutions across the business.

Mike Grimaldi, Chief Information Officer, Global Markets at Deutsche Bank, said: “This new and strengthened agreement with Misys will help us to accelerate our technology transformation – making the bank simpler and more efficient.”

Nadeem Syed, CEO of Misys, said: “We’re very excited to extend our long-term partnership with Deutsche Bank and to provide this leading financial institution greater flexibility and agility in how it deploys our Misys Fusion software portfolio – helping it to streamline front-to-back office operations, reduce operational risk, grow and digitalise.”
