

## FUSION BACSACTIVE-IP

# The Fast and Effective Way to Make Payroll & Supplier Payments and Collect Direct Debits Securely and Reliably

As standard, Bacsactive-IP enables you to send, and manage your Bacs payments securely. You can also download reports, and manage users. With the option to add modules to further automate your processes and build the most effective payment solution for your needs.”

Using cloud-based technology, Fusion Bacsactive-IP is the perfect solution for any organization—regardless of size or complexity.

Fusion Bacsactive-IP gives you online access to the full range of Bacs services 24/7 every working day, from anywhere with Internet access.

- Make sterling transfers to and collections from any UK bank account, simply and securely from almost any computer
- Reduce administration and errors—Built in Bank Account Number and Sort Code validation checks, together with the Bank Holiday calendar, ensure that your payments are processed without error and arrive on time
- Better control—Granular permissions makes it easier to make payments and take collections safely and securely.
- Always up to date—As an online service, there are no software upgrades or data updates to manage
- Help manage cash flow—With the facility to set up a range of payment options.

### Access a Wide Range of Additional Modules

As standard, Bacsactive-IP enables you to send, and manage your Bacs payments securely. You can also download reports, and manage users. Modules give you the option to further automate your processes and build the most effective payment solution for your needs:

#### Available Modules:

- Account Validate
- Bank Grade
- Bureau
- Direct Debit Manager
- Faster Payments
- Government Grade
- HSM
- Remittance
- Sage Payroll
- Sage 50
- Workflow

# SaaS is an Attractive Way to Reduce the Cost of Deployment and Ownership of Your Bacstel-IP Solution

Finastra provides you with all the hardware, software and expertise which enables your core IT staff to focus on other priorities.

Finastra runs the very latest resilient servers and provides multiple high-bandwidth connections to Bacs on your behalf to cover all your transactional demands.”

## **Why Choose Software as a Service (SaaS)?**

SaaS is an attractive way to reduce the cost of deployment and ownership of your Bacstel-IP solution. By subscribing to our software service instead of purchasing a software license, you can make significant time and cost savings during implementation and throughout the project. SaaS has many key benefits, including:

### **Reduced Costs**

With SaaS, Bacsactive-IP can be delivered on-demand with little setup costs—there is no need to buy or install software or set-up your own server-system. You can access all Bacsactive-IP screens and use your smart card via Internet Explorer.

### **Quick and Easy Set-Up**

With direct access to the Bacsactive-IP system through Internet Explorer, you can begin using the system within minutes.

### **On-Demand Solutions**

Finastra runs the very latest resilient servers and provides multiple high-bandwidth connections to Bacs on your behalf to cover all your transactional demands. The managed service scales with your volumes as required.

### **Latest Software**

You can be sure that the system you are using for your Bacs payments is always up-to-date. All SaaS users have the latest version of the software with the latest security policies and latest Industry Sort Code Directory applied.

### **More Time to Focus**

Finastra provides you with all the hardware, software and expertise that will enable your core IT staff to focus on other priorities.

### **Integration with Existing Systems**

Most organizations use accounting systems to manage their payments. Bacsactive-IP is designed to make payments easier by accepting files from most proprietary accounting systems. Bacsactive-IP accepts most common file formats. If you prefer, you can use Bacsactive-IP's internal payments facility to manage payments.

## Benefits of Accounting Software

### Integration:

- Save time because payment information doesn't have to be entered into two separate systems
- Fewer errors and the inevitable costs they involve
- Fewer bottlenecks as it's easier to make batch payments

### Security

The Bacsactive-IP system is protected by a password, smartcard and smartcard reader for each of your authorized users. This lets you digitally sign and secure your payment files, so that they can be validated when they're received by Bacs.

## Expert Support

Our specialist teams will install Bacsactive-IP and provide onsite staff training. This is included in the service. In addition there are user guides and on-screen help, and our Helpdesk is on hand to give you all the support you need. You can call the Helpdesk any time from 9:00 a.m. - 9:00 p.m., Monday to Friday (except bank holidays) on 0345 644 0640.

### Contact Us
