Allied provides the digital payment technology financial institutions need to capture new account holders, unlock revenue, reduce attrition, and prove your relevance in the market. Stay competitive, earn new business, and be proud of your payment technology.

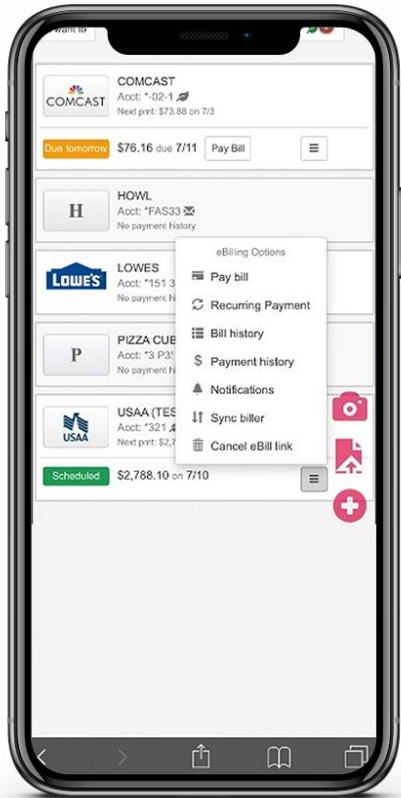

### Technology Rooted in User-Centered Design Thinking

The best-of-breed solutions provide what users need, all within a financial institution’s trusted digital environments. Allied technology makes competing payment platforms unnecessary.

### Partnership

Allied understands how financial institutions must cope with the struggles of innovation, modernization, and conversion. Through a true partnership, first-to-market features and technologies help you capture new users, unlock revenue, and excel within the market.

# Allied provides the digital payment technology financial institutions need to innovate, modernize and thrive.

## Products Include:

### FlexPay: Tomorrow's Bill Pay Platform

FlexPay is the cutting-edge bill pay platform that integrates with our additional distinctive modules. Conversion is refreshingly easy, so community banks and credit unions get the bill pay platform you want while saving time and preserving scarce resources.

### eBills

View and manage full PDF bill images from over 12,000 billers (not just bill summaries) and enjoy automated linking with a comprehensive setup wizard.

### PicturePay®

Improve the user experience and drive bill pay adoption. Customers can pay bills and set up payees by simply taking a photo of their bill. Fifty percent of PicturePay users did not previously use traditional Internet bill pay.

### Vault

A keyword-searchable filing cabinet for bills, receipts, insurance documents and more, Vault motivates users to stay in their financial institution's trusted digital environment.

### BizPay

Even small businesses can send payroll and/or direct ACH payments without cumbersome financial reviews. Funds are guaranteed, so risk is mitigated.

## About Finastra

Finastra unlocks the potential of people and businesses in finance, creating a platform for open innovation. Formed in 2017 by the combination of Misys and D+H, we provide the broadest portfolio of financial services software in the world today—spanning retail banking, transaction banking, lending, and treasury and capital markets. Our solutions enable customers to deploy mission critical technology on premises or in the cloud. Our scale and geographical reach means that we can serve customers effectively, regardless of their size or geographic location—from global financial institutions, to community banks and credit unions.

Through our open, secure and reliable solutions, customers are empowered to accelerate growth, optimize cost, mitigate risk and continually evolve to meet the changing needs of their customers. 90 of the world's top 100 banks use Finastra technology.
