Collaboration is the new innovation

At Finastra, we place social responsibility at the heart of our culture, bringing people and technology together through financial inclusion, social innovation and our environment mission.

With 10,000 people in 130 countries working together with an ecosystem of developers, programmers and 8,500 global clients – we believe in the power of collaboration to unlock the potential of people, businesses and communities.

What is the Collaborative CSR Program?
The Collaborative CSR Program offers you the opportunity to work together with Finastra to support social and environmental impact. Whether you’re looking to support financial inclusion projects, provide children and disadvantaged members of society with skills for a more successful future or reduce carbon footprint, Finastra has a wide range of impactful CSR initiatives across three different pillars that you can engage with.
Financial Inclusion

There are currently 1.7 billion people in the world who are unbanked. Finastra understands its potential to help solve this global challenge and is acutely aware of the benefits that improved financial literacy rates and affordable access to financial services can have to alleviate poverty and generate global economic growth. We work with customers, partners, NGOs and non-profits globally to deliver programs to educate and provide access to the unbanked for payments, loans and other financial products to lead better lives. Our impact in financial inclusion is stronger together. Collaborate with Finastra to support our financial inclusions projects by:

- Providing access to financial services that you deliver such as lending, custodian or payments in collaboration with Finastra to help your local community
- Enabling your employees to volunteer their skills and expertise to support our banking the unbanked initiatives
- Creating a philanthropic grant, which Finastra can match, to fund our local or global financial inclusion projects

Through collaboration with our customers and partners, we have the potential to scale our impact in financial inclusion.
**Social Innovation**

Finastra delivers CSR programs focused on investment in youth, diversity and inclusion and ‘tech for good’. Every year we host more than 10,000 children at our offices around the world through our social innovation programs. Finastra has a long-term commitment to delivering computer science skills to school children and underrepresented minorities to prepare them for a world increasingly influenced by technology through our partnership with Code.org’s Hour of Code initiative. As part of our undergraduate and mentorship social mobility program, Finastra also host our Mentorship Café, Insight Days and interns around the world, to equip young people with key skills for the future.

**Collaborate with Finastra in social innovation to:**

- Donate your employee’s time to assist on a Finastra CSR social innovation project
- Donate decommissioned laptops to help build a new tech lab for a school in partnership with Finastra. *Watch video*
- Provide office spaces to host an Hour of Code or a Mentorship Program session
- Be paired with a mentee and provide guidance on a young person’s personal and professional development
- Host work experience weeks to provide young people with an understanding of your business
- Attend a Finastra CSR innovation day or hackathon event to work on Tech for Good initiatives to help communities become more resilient, successful and adaptable to change
- Support our CSR social innovation programs through a philanthropic grant or sponsorship package

“The principle of common but differentiated responsibilities is the bedrock of our enterprise for a sustainable world.”

*Narendra Modi*
Prime Minister of India
Environment Mission
Finastra creates and deploys financial technology that helps reduce the carbon footprint of our global customer base. Whether it’s through the reduction of employee travel, paper consumption or energy that our solutions enable through the digitization of banking processes or the digitalization of financial services, we are committed to reducing emissions within our sector. We also look inward and are constantly thinking of ways to either reduce or offset our own emissions as a business with a goal to be completely carbon neutral by 2030.

Collaborate with Finastra on our environment mission through:

- Best practice sharing with our Environment Mission working group to help reduce our carbon emissions
- Collaborative projects with Finastra to offset carbon emissions e.g. investing in renewables or tree planting
- Raising awareness of how Finastra technology has helped you to reduce your carbon footprint through an environmental case study

To get involved, contact us at collaborativecsr@finastra.com or speak to your Finastra Account Manager.

About Finastra
Finastra is building an open platform that accelerates collaboration and innovation in financial services, creating better experiences for people, businesses and communities. Supported by the broadest and deepest portfolio of financial services software, Finastra delivers this vitaly important technology to financial institutions of all sizes across the globe, including 90 of the world’s top 100 banks. Our open architecture approach brings together a number of partners and innovators. Together we are leading the way in which applications are written, deployed and consumed in financial services to evolve with the changing needs of customers. Learn more at finastra.com
