Factsheet
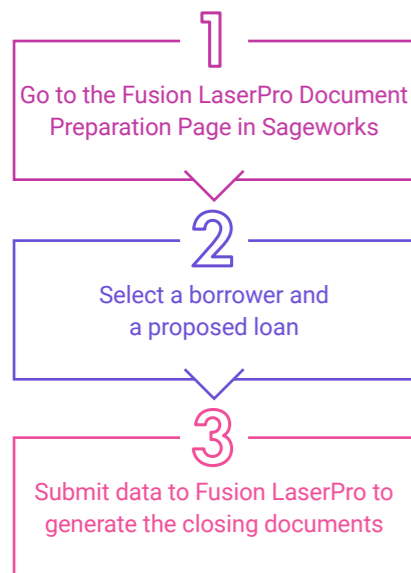

Fusion LaserPro Cloud Connect API enables seamless integration with Sageworks by Abrigo

Providing credit analysts and loan servicing staff with the connectivity, efficiency, and compliance coverage they need.

How it works:

1

Go to the Fusion LaserPro Document Preparation Page in Sageworks

2

Select a borrower and a proposed loan

3

Submit data to Fusion LaserPro to generate the closing documents

Finastra's Fusion LaserPro in collaboration with Sageworks by Abrigo has created an Application Program Interface (API) integration that brings efficiency to users of both solutions. With this powerful interface, Fusion LaserPro, the industry leading, compliant document generation solution connects with Sageworks, Abrigo's leading loan origination solution (LOS).

The Fusion LaserPro Cloud Connect API enables credit analysts and loan servicing staff to easily select information within Sageworks and transfer it to Fusion LaserPro to generate documents.

Requirements for integrations:

- Current customer of both Sageworks by Abrigo and Fusion LaserPro

- Fusion LaserPro Cloud Connect Credentials

- Fusion LaserPro version to 19.4 or above

Benefits of using the API

Save time
Quickly select the loan and details needed then send to Fusion LaserPro with one click

Reduce manual work
No need to specify data mapping rules or manually export files

Validate data
Sageworks validates data before sending it to Fusion LaserPro to ensure a successful transfer

Includes hundreds of fields
There are over 250 different fields available including customers, collateral, and loan data. No limitation on borrowers or collateral

Quick and easy setup
Integration setup can be completed in a couple of days and the intuitive loan data selection process creates efficiency gains

Fusion LaserPro Cloud Connect in action

Only 3 simple steps are needed to send loan details to Fusion LaserPro from Sageworks by Abrigo.

1 Select loan details

In the new "Document Preparation with LaserPro" module in Sageworks, select the loan details. Required fields are clearly indicated.

2 Select borrower details

Next, select the borrowers for the loan. Users can identify Fusion LaserPro role types and authorization synchronized from Fusion LaserPro. Users can move freely through the screens to check borrower and loan information before sending the loan to Fusion LaserPro.

3 Select collateral details

Collateral is selected on the third page. Once all details are entered, select "Export to LaserPro," to automatically send the transaction information to Fusion LaserPro. A confirmation message from Fusion LaserPro is sent to confirm the transfer was successful.

About Finastra

Finastra is building an open platform that accelerates collaboration and innovation in financial services, creating better experiences for people, businesses and communities. Supported by the broadest and deepest portfolio of financial services software, Finastra delivers this vitally important technology to financial institutions of all sizes across the globe, including 90 of the world's top100 banks.
