

Factsheet – Fusion PAYplus FTS

Fusion PAYplus FTS is a functional rich and market proven Payment Hub Solution

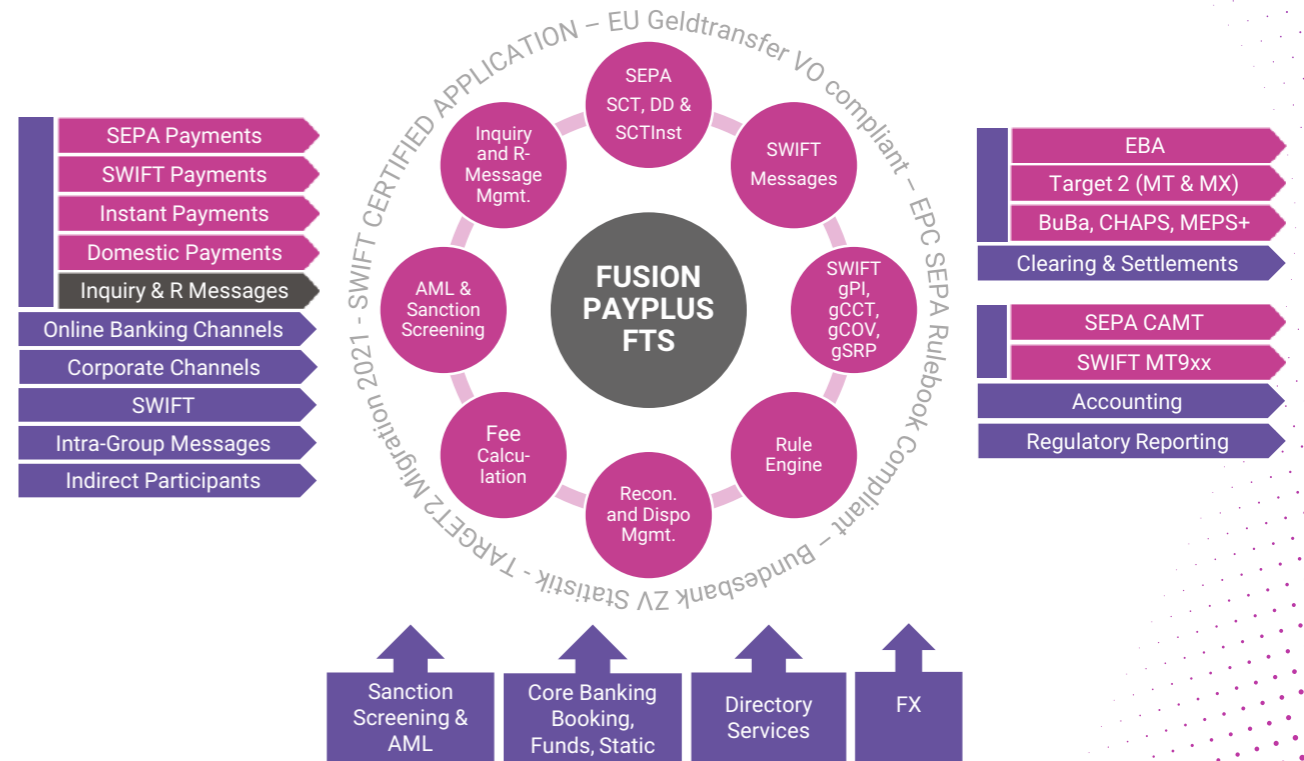

that offers end-2-end payment lifecycle capabilities with a strong footprint in the European market.

Rich Functional Scope

The platform is certified by SWIFT for the 7th year in a row and supports a rich set of SWIFT x border message types, processing capabilities and is already fully compliant to SWIFTgpi innovation Fusion PAYplus FTS supports also the full scope of SEPA ISO 20022 schemes including SCT, SDD Card Clearing, R-Messages, Inquiries and Account Statements

Instant Payments

SEPA Instant Payments is starting to convert the classic transfer and direct debit scheme as we have seen it already in many countries like e.g. UK, Sweden and Denmark. The adoption rate has more than quadrupled in 2019 and we are expecting a strong growth going forward. Fusion PAYplus FTS offers full Instant Payments capabilities as a cloud service offering 24/7/365.

Solve payments complexity in Europe

Fast Integration

Fusion PAYplus FTS offers a fast implementation into any payment provider business architecture and offers strong out of the box features like AML Sanction Screening, Account Management Funds Check, Cash and FX management It can be easily integrated with all Retail and Corporate Channels, market leading Core Banking Solutions, Compliance Filters or FX systems

Standardized Solution with configuration capability

Fusion PAYplus FTS offers standardized payment processing and sophisticated configuration capabilities The platform enables you to define your operational structure, fee model and validation rules by a toolbox of flexible components. The rule engine allows you to specify your own validation and routing rules without a code change required.

Payment Hub and Scalability

Streamline your various payment rails SEPA, High Value, X Border, Domestic and Instant to one reliable platform to reduce maintenance complexity and cost and to increase your STP rates Our clients choose between a multi tenant setup with sophisticated configuration possibilities or a multi instance architecture to address regional or organisations demands The platform can be hosted on premises or provided as managed hosting service.

Regulatory and compliance

Fusion PAYplus FTS is fully compliant with EPC rulebooks, SWIFT certification standards and also EU regulation Mandatory reports are available out of the box or can be easily enhanced to cover local regulatory needs.

About Finastra
