FusionFabric.cloud

Fusion Originate Mortgagebot and Fusion MortgagebotLOS

Loan Origination Integrations via Fusion Fabric.cloud

Fusion Mortgagebot's integration ecosystem enables a true end-to-end mortgage onboarding experience: maximizing efficiency, minimizing TCO, and optimizing the borrower experience.

"Digitizing the full mortgage loan origination process is the best way financial institutions can future-proof themselves in today's rapidly transforming market. Scalability, efficiency, transparency...and a lot more profitability."

Finastra's best-in-class, open, digitized end-to-end mortgage lending proposition supports the full mortgage lifecycle, from loan origination through decisioning to servicing. Fusion Originate Mortgagebot and Fusion MortgagebotLOS provide the most extensive front-to-back mortgage solution deployed on cloud with treamlined connectivity to an industry-leading ecosystem of over 100 pre-integrated partners and fintechs.

FusionFabric.cloud delivers the future of mortgage onboarding. A suite of dynamic integrations to address your highest priorities
