

FINANCIAL SOLUTIONS SHAPED BY YOU

What does the future hold for your mission-critical financial services software?

Our world is changing. Fast.

But what does this mean for our customers?

INNOVATING FINANCE TOGETHER

Finastra partners with customers like you to deliver reliable and secure mission-critical financial services software shaped by your needs and driven by innovation.

\$3.8 trillion

in syndicated loans are underwritten by customers using Finastra's software

\$7 trillion

in transactions are moved every single day through Finastra solutions

2.2 seconds

customers close a loan package using Finastra lending software

It's all supported by three key pillars:

CUSTOMER OBSESSION

Everything starts with you. Through continuous feedback and hands-on collaboration, our solutions are designed to solve your challenges, support your goals and scale as you grow.

What it means for you

Get software that solves real business problems

Make confident decisions with expert guidance

Scale securely without disruption

Stay compliant without the admin burden

RELIABLE, SECURE AND TRUSTED

Trust matters. That's why leading institutions rely on us to deliver secure, high-performance software that keeps critical systems running and ready for what's next.

What it means for you

Innovate with built-in security at every layer

Spot threats early with real-time fraud protection

Stay online with global failover and business continuity

Keep up with regulation without the heavy lift

CO-INNOVATION

We don't innovate in isolation. We work with our customers, partners and fintechs to co-create practical solutions that deliver impact.

What it means for you

Get solutions shaped around real needs

Access innovative tech like Gen AI without starting from scratch

Solve problems faster with the right tools and people

Stay ahead with innovation that evolves with you

We're delivering mission-critical financial services software across the sector

That's why finance runs on Finastra

Lending

We help financial institutions modernize and scale their lending operations, from corporate to retail.

Payments

Payments should work seamlessly, securely and at scale. Our payments solutions are built to handle complexity without adding it.

Universal Banking

Finastra's Universal Banking solutions give financial institutions a flexible way to manage every part of the banking lifecycle.

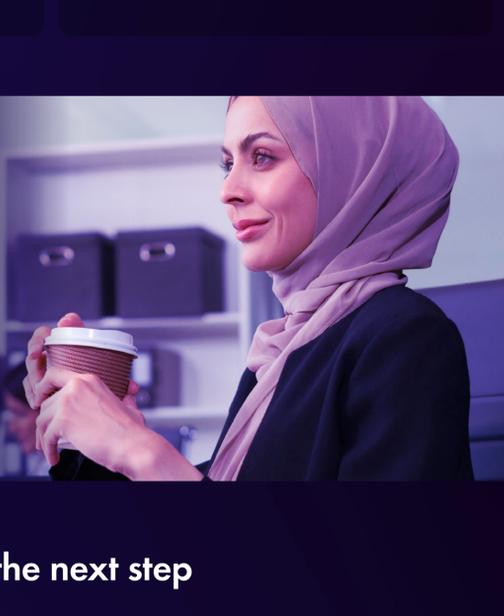

USMM Digital & Core Banking

Finastra's digital and core solutions are designed to help institutions compete, modernize and grow.

Success story

Discover how BNI streamlined its domestic and international trade finance operations by implementing Finastra Trade Innovation—a comprehensive platform that replaced all legacy trade finance tools—and is now achieving dramatic productivity gains.
