Why Finastra ECM works for you?

Finastra ECM is engineered to integrate seamlessly with almost any core banking system and digital banking platform, ensuring you can leverage your existing technology investments while advancing your content strategy.

A Unified View of Content

By centralizing your documents and data, you break down silos, giving your staff a complete view of account holder information across all departments.

manual entry. For documents without bar codes, templating is available to set default values, hide unnecessary fields, and mark specific fields as required to focus users on mandatory data.

Browser-Based Simplicity

No clunky desktop software: the platform features a browser-based, simple-to-use interface that requires minimal training, enabling staff to quickly find, view, and manage content from anywhere.

Painless Maintenance

The system ensures that upgrades are virtually seamless and require no assistance from staff, freeing up your IT team to focus on strategic initiatives, not maintenance.

Streamlined Document Import

Users can scan paper documents with any multi-function device and use our lightweight Distributed Capture solution to import the PDFs into the platform or directly import electronic files like TIFFs or PNGs. With Distributed Capture, index values can be set automatically for documents with bar codes eliminating
