

Allied Banking Corporation (Hong Kong) Limited, a restricted licence bank

Enhancing operational efficiencies with Finastra Essence Analytics

//

One of the key benefits of modernizing our core banking operations with Finastra's cloud-first next-generation Essence solution, is the accessibility to advanced technologies that enhance our operational efficiency, increase productivity and reduce transaction costs. With Essence Analytics, ABCHK has been able to manage and enhance data and automate processes for general operational, management, audit and regulatory reporting. This cloud-based, API-led, and Retail Analytics upgrade has enhanced efficiency, reduced costs, and supported the regulatory reporting for the bank."

Lourdes A. Salazar

About Allied Banking Corporation (Hong Kong) Limited

Allied Banking Corporation (Hong Kong) Limited (ABCHK), established in 1977, is a private limited company and a restricted licence bank regulated by the Hong Kong Monetary Authority. Its principal activities include commercial banking services in Hong Kong, such as deposit-taking, lending and trade finance, documentary credits, money market operations and foreign exchange services. ABCHK is a subsidiary of Philippine National Bank (PNB), one of the largest banks in the Philippines, offering a comprehensive suite of competitive banking products across approximately 631 domestic branches and 73 overseas branches and offices across 17 jurisdictions.

About Essence Analytics

[Finastra Essence Analytics](#) is an enterprise-grade analytics solution that transforms raw banking data into real-time, actionable insights using Microsoft Power BI, Azure Databricks, and a curated, extensible banking data model. It offers pre-built and customizable dashboards plus predictive AI/ML capabilities (such as churn prediction, next best product recommendations, and cashflow forecasting), driving measurable efficiency and growth for financial institutions regardless of their core banking platform.
