

# Loan IQ Build: Easily onboard deals into Loan IQ

Loan IQ Build, a module of Loan IQ Nexus, allows for seamless integration between Loan IQ and any upstream loan origination system(s), bringing straight-through-processing to loan onboarding

## What it does

### Loan IQ Build

Loan IQ Build easily integrates with your loan origination system(s) using generic open APIs, providing an advanced user experience and automated workflows that streamline the entire onboarding process.

### About Loan IQ Nexus

Loan IQ Nexus is Finastra's market integration layer that fosters a connected lending ecosystem by promoting seamless connectivity and interoperability across both internal and external platforms. Nexus is comprised of 4 modules, Loan IQ build, Loan IQ Transact, Loan IQ Maintain and Loan IQ Connect, all of which cover different aspects of the loan lifecycle.

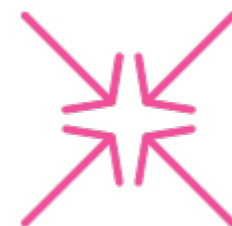

## Solution highlights

Auto-enrichment digitizes and automates loan onboarding

Customizable, client-defined translation mapping

Single point of entry for all loan onboarding

Dashboards to monitor exceptions and workflow
