

Loan IQ & Nammu21

Intelligent loan onboarding

Loan IQ, powered by its market integration layer, Loan IQ Nexus, seamlessly integrates with Nammu21 to transform the loan onboarding process, replacing manual, time-consuming processes with a streamlined, connected workflow.

IDC - Named a Leader in the 2025 Corporate Loan Lifecycle Management vendor assessment

Charts 2025 RiskTech 100 - Recognized for excellence in Lending Operations - Loan Management

70% of the world's syndicated loans are serviced via Loan IQ

89 clients globally

20 of the top 25 syndicated lenders are Loan IQ clients

How the Loan IQ & Nammu21 integration works

Credit agreements are uploaded in any format to Nammu21 where the document will be deconstructed and digitized

Loan IQ Nexus receives the data from Nammu21 and validates, enriches and routes the extracted data into Loan IQ

The deal is then automatically created in Loan IQ and is ready for processing

Why Loan IQ Build

Easily scale

Remove operational constraints through automation and integration

Improved borrower experience

Digitization simplifies the process and reduces lead times

Future proof

Finastra owns and maintains the market-facing APIs

Reduce risk

Reduce manual inputs and leverage built-in controls to strengthen control

Key functionalities and capabilities

Partner LOS / upstream platform agnostic for greater flexibility

Seamless connection to a wider ecosystem through Loan IQ Nexus

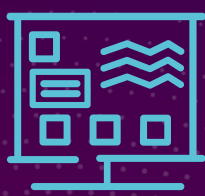

Auditable data lineage tracing back to the source

Intelligent document deconstruction technology

Smart ingestion validates, maps and enriches data before it enters Loan IQ

Dashboards and exception-based processing
