FINASTRA BRAC BANK

BRAC Bank enhances trade finance operations with Finastra

BRAC Bank, one of Bangladesh's leading private commercial banks, has gone live with Finastra's Trade Innovation and Corporate Channels, and Conpend's Trade AI solutions, creating a more connected trade finance environment for the bank and its corporate customers.

"This implementation marks an important milestone in our trade finance transformation. By digitizing and streamlining trade operations, we are enhancing transparency, control and efficiency across the trade finance lifecycle, enabling us to serve our corporate clients with greater speed and reliability. This advanced trade solutions brings us closer to our ambition of becoming the most preferred trade bank in Bangladesh by consistently delivering superior value to our customers."

Tareq Refat Ullah Khan
Managing Director & CEO, BRAC Bank PLC

As trade volumes grow and customer expectations continue to evolve, BRAC Bank sought to modernize its trade finance operations, improve efficiency, and establish a scalable foundation for future growth. By replacing fragmented processes with an integrated digital platform, the bank is streamlining trade finance workflows – increasing straight-through processing and enhancing visibility across the trade finance lifecycle.

The new platform provides BRAC Bank with an integrated foundation for modern trade finance operations – delivering benefits across efficiency, customer engagement, and long-term scalability.

- **Extensive digital trade capabilities:** Enables streamlined trade finance operations with greater straight-through processing, improved efficiency, faster deployment of new services, while supporting compliance with evolving industry standards, including ISO 20022 and Swift SR2026 requirements.
- **Connected customer experience:** Provides corporate clients with a single channel to initiate requests, collaborate securely, approve transactions, and track progress in real time, enhancing visibility, control, and operational efficiency while maintaining governance and oversight.
- **Foundation for future growth:** Built on an open and scalable architecture, the platform supports BRAC Bank's long-term digital transformation strategy and provides flexibility to expand capabilities, support growing transaction volumes and adopt new technologies as business needs evolve.
